

**ADDENDUM #2
TO SPEC. 07-072**

**Non-Potable Water Supply Test Wells for
Jensen Park Site**

Addendum #2 to Spec. 07-072 for Non-Potable Water Supply Test Wells for Jensen Park Site originally to be opened on Wednesday, February 21, 2007 at 12:00 noon.

Please note the following:

The Due Date has been change to Wednesday, February 28, 2007.

Clarification for Scope of Work for this Contract:

* Denotes new Bid Items in addition to those added with Bid Addendum No. 1.

- Item 1: Drill & Log Test Holes per the specifications to determine area geology and possible water sources/locations. For bidding purposes assume each test hole is 200 ft. deep.

- Item 2: Cost per vertical foot for Test Holes. This unit price will be used to adjust actual cost for each test hole in Item 1 (i.e., if actual test hole is less than or greater than 200 ft.).

- Item 3: Construct Vertical Test Wells per the specifications for water quality sampling and testing. If Item 1 Test Holes are determined to be potentially favorable for water supply, convert Test Holes (ream and case with 4" diameter PVC including slotted screen, gravel pack and Bentonite slurry seal) for Test Well(s) that can be pumped for water quality sampling. For bidding purposes assume each test well is 200 ft. deep.

- Item 4: Cost per vertical foot for Test Wells. This unit price will be used to adjust actual cost for each test well in Item 3 Test Wells (i.e., if actual test well is less than or greater than 200 ft.).

- Item 5: Abandonment of Test Hole. If Item 1 Test Holes are determined not to be favorable for water supply and thus not converted to test wells, they shall be properly abandoned per the specifications. For bidding purposes assume each test hole to be abandoned is 200 ft. deep.

- Item 6: Cost per vertical foot for Test Hole Abandonment. This unit price will be used to adjust actual cost for each test hole in Item 1 to be abandoned (i.e., if actual test hole is less than or greater than 200 ft.).

- *- Item 7: Abandonment of Test Well. If Item 3 Test Wells are determined not to be favorable for water supply/quality, they shall be properly abandoned per the specifications. For bidding purposes assume each test well to be abandoned is 200 ft. deep.

*- Item 8: Cost per vertical foot for Test Well Abandonment. This unit price will be used to adjust actual cost for each test well in Item 3 to be abandoned (i.e., if actual test well is less than or greater than 200 ft.).

*- Item 9: Water Sampling and Analysis (13 Parameter Test). Bid as Unit Price of \$_____ per Test Well.

Additional Notes for Clarification of Desired Work:

- This contract will not include design and/or installation of actual irrigation production/supply wells. It is anticipated that construction of irrigation production/supply wells will be part of a future project.

- If water quantity and quality are determined to be adequate for development of future irrigation production/supply wells, Contractor shall provide recommendations for actual supply well design (i.e., well and pump sizes, total depths, length of screen, etc.)

Replace the Proposal Page attached with Addendum No. 1 with the Amended 2 Proposal Page.

All other terms and conditions to remain unchanged.

Dated this 16th day of February, 2007.

Specification 07-072
Non-Potable Water Supply Test Wells
Jensen Park Site
(Amended 2)

BID OPENING TIME: 12:00 NOON
DATE: **February 28**, 2007

Item	Description	Quantity	Unit Price	Total
1	Drill & Log Test Holes, 200' Max.	4 each	\$_____	\$_____
2	Cost per vertical foot for Test Hole depth	1 per VF	\$_____	\$_____
3	Construct Vertical Water Well (i.e., enlarge test hole, add casing, screen and gravel pack)	2 each	\$_____	\$_____
4	Cost per Vertical Foot Water Well Depth	1 per VF	\$_____	\$_____
5	Abandonment of Test Hole	2 each	\$_____	\$_____
6	Cost per Vertical Foot for Test Hole Abandonment	1 per VF	\$_____	\$_____
7	Abandonment of Test Well	2 ea	\$_____	\$_____
8	Cost per Vertical Foot for Test Well Abandonment	1 per VF	\$_____	\$_____
9	Water Sampling & Analysis (13 Parameter Test)	Per Well	\$_____	\$_____
10	Well Permits	Lump Sum	\$_____	\$_____
11	State Well Registration	Lump Sum	\$_____	\$_____

5% bid bond required with bid. Performance bond will be required with signed contract.

The undersigned signatory for the bidder represents and warrants that he has full and complete authority to submit this proposal to the City, and to enter into a contract if this proposal is accepted.

RETURN 2 COMPLETE COPIES OF PROPOSAL AND SUPPORTING MATERIAL.
